## FROM THE PUBLISHER

Permission to copy all of St Theresa, Manchester, NH, sacramental records was granted by Father John **Bavaro**, OFM, pastor of Blessed Sacrament, Manchester, NH

Copying the records is the most critical step in the process and requires many hours to complete because some of the early records are so fragile making it difficult to handle them. The parish records were copied with the helpful cooperation of Lisa Ann **Siraco**, Secretary, Constance Bernier **Hébert**, and James **Gaudet**.

We are grateful to all the volunteers who worked long, tedious hours to produce the repertoire you are holding. As you can see below, there are several phases of production that go into the making of a repertoire.

**Photocopying Records:** Constance Bernier **Hébert**, Lorette Gobiél **Leafe**, Robert **Neveux**, and Muriel **Normand**.

**Data Entry:** Marcel P. **Coté**, Therese Lambert **Beaudoin**, and Maurice **Paquette**.

**Proofreading:** Richard **Côté**, and Lorraine L'Heureux **Huppe**.

**Proofreaders Printouts and Data Corrections:** Pauline Genest **Coté**.

**Printing Master:** Pauline Genest **Coté**, and Gerard **Savard**

**Forward:** Julie **Smith**

**History:** James **Gaudet**

## THIS BOOK AND ITS CONTENTS

This *répertoire* contains 2093 baptism records that took place from Oct. 1934–June 2004.

Our policy when producing a baptism *répertoire* is to scrutinize each record during the proofing phase to be sure that we have not included any obvious private information such as illegitimacy or adoption. We do include all genealogical information contained in the records, i.e., parents, godparents, birth date if given, and all relevant marginal notes for marriage date, place and spouse.

It is also our practice to enter the data as it appears in the original document, however, if there are discrepancies that cannot be resolved as a transposition or typographical error, the researcher is encouraged to contact the parish priest to ask for permission to see the original documents. If, with all our data entry and proofreading experience, information cannot be deciphered, we leave the final choice to the user of the information.
