FROM THE PUBLISHER

Permission to copy all of St. Theresa, Manchester, NH parish burial records was granted by Father John **Bavarro**, OFM, pastor of Blessed Sacrament, Manchester, NH.

Copying the records is the most critical step in the process and requires many hours to complete because some of the early records are fragile making it difficult to handle them. The parish records were copied with the helpful cooperation of Lisa Ann **Siraco**, Secretary, Constance Bernier **Hébert**, and James **Gaudet**.

We are grateful to all the volunteers who worked long, tedious hours to produce the repertoire you are holding. As you can see below, there are several phases of production that go into the making of a repertoire.

Photocopying Records: Constance Bernier **Hébert**, Lorette Gobiél **Leafe**, Robert **Neveux**, and Muriel **Normand**.

Data Entry: Therese Lambert **Beaudoin**.

Proofreading: John **Cooke**, and Lorraine L'Heureux **Huppe**.

Proofreaders Printouts & Data Corrections: Pauline Genest **Coté**.

Printing Master: Pauline Genest **Coté**, and Gerald **Savard**.

Forward: Julie **Smith**

History: James **Gaudet**

THIS BOOK AND ITS CONTENTS

This *répertoire* contains 726 burials that took place from December 1934 – July 6, 2004. However, there are 19 years of missing, misplaced or lost records: September 1978-July 1997.

Our policy when producing a burial *répertoire* is to extract as much genealogical information as possible from these records. Some records have very little information and others are brimming with genealogical data. It is not our policy to second guess a pastor's intent 100 years ago. When in doubt, we enter the record as we see it and leave the decision of usefulness to the researcher.

It is also our practice to enter the data as it appears in the original document, however, if there are discrepancies that cannot be resolved as a transposition or typographical error, the researcher is encouraged to contact the parish priest to ask for permission to see the original documents. If, with all our data entry and proofreading experience, information cannot be deciphered, we leave the final choice to the user of the information.
