FROM THE PUBLISHER

Permission to copy all of St. Joseph, Broadalbin, NY parish baptism records was granted by Father **Morrette**

Copying the records is the most critical step in the process and requires many hours to complete because some of the early records are fragile making it difficult to handle them. The parish records were copied by and with the helpful cooperation of Mrs. Marion **Walag**, parish secretary.

We are grateful to all the volunteers who worked long, tedious hours to produce the repertoire you are holding. As you can see below, there are several phases of production that go into the making of a repertoire.

Photocopying Records: David L. **Bonitatibus** and Joseph David **Schmid**.

Data Entry: Marcel P. **Côté**, Constance Bernier **Hebert**, Paul L. **Lambert**, and Maurice **Paquette**.

Proofreading: Kathleen Gallagher **Brearton**, David L. **Bonitatibus**, Sioban Dussault **Bonitatibus**, Kathleen Kaza **Grabo**, Lynn Carey **Grice**, Lynne Dignum **Sisk**, and Lois Cruden **Yunker**.

Proofreaders Printouts & Data Corrections: Pauline Genest **Coté**.

Printing Master: Pauline Genest **Coté**, and Gerard **Savard**.

Forward: Julie **Smith**

History: David L. **Bonitatibus**, and Julie **Smith**.

THIS BOOK AND ITS CONTENTS

This *répertoire* contains 3,127 baptisms that took place from January 1890 to May 2006. Also included are the baptisms from the mission of St. Mary Galway, NY, from January 1978 to November 1985.

Our policy when producing a baptism *répertoire* is to scrutinize each record during the proofing phase to be sure we have not included any obvious private information such as illegitimacy or adoption. We do include all genealogical information contained in the records, i.e., parents, godparents, birth date if given, and all relevant marginal notes for marriage date, place and spouse.

It is also our practice to enter the data as it appears in the original document, however, if there are discrepancies that cannot be resolved as a transposition or typographical error, the researcher is encouraged to contact the parish priest to ask for permission to see the original documents. If, with all our data entry and proofreading experience, information cannot be deciphered, we leave the final choice to the user of the information.
