PREFACE

This is the second of three volumes of headstone inscriptions in Clinton County, New York. This volume contains inscriptions of 47 cemeteries and has about 30,000 records. It was revised in 2004 to update and add additional information that was not available when it was first published. As part of the revision, the names and dates were compared to the last 36 years of obituaries to insure accuracy. It contains the remaining cemeteries in the city of Plattsburgh and the towns of Peru, Dannemora, Plattsburgh, and Schuyler Falls that were not in volume I. It contains all of the cemeteries in the towns of Ausable, Black Brook, and Saranac.

Even though the spouse's maiden name may not be on the headstone, it is included whenever it could be ascertained from other sources. The person is listed under both their name and their spouse's name. The reader is reminded that the spellings are exactly as shown on the headstone and may not be what you are looking for. Please look under all of the possible spellings of the name. There is also a list of name variations that I have observed on page 440.

A map of each cemetery is included in this volume, and in many cases, is divided into sections. Once you locate the record and want to visit the cemetery to see the headstone, write down the cemetery code and section shown in the last two columns of each record. Locate the map of the cemetery by using the list of cemeteries and record the location. You are now ready to visit the cemetery. There is an index of all the cemeteries in Clinton County on page 437 that shows which volume the headstone records are listed in.

ACKNOWLEDGEMENT

I would like to acknowledge the help and assistance of Mrs. Addie Shields, Clinton County Historian, and Doris Burgess, a volunteer in her office. I would also like to thank Michael Burgess, Historian for the town of Schuyler Falls.

I consulted the *McClellan Cemetery Records of Clinton County* on several occasions to determine the inscription on stones that had deteriorated over the years. These records were made and recorded by *Hugh McClellan, son Charles Woodbury, and daughter-in-law, Hulda (Bredenberg) McClellan*. I also used these records to locate several of the older cemeteries.
