FROM THE PUBLISHER

Permission was granted to copy all of St. Joseph, Fort Edward, NY, sacramental records from Father Joseph X.

Arockiasamy, administrator. The St. Joseph's marriage records were copied with the gracious help of the secretary, Elizabeth **Hamilton**.

Copies of these records were of poor quality, consequently some material is incomplete or missed. If you think some of the material you were searching for was missed, consult the church. Copying the records is the most critical step in the process and requires many hours to complete. The records are fragile and were carefully handled while scrutinized to be sure we have captured all the pertinent information.

We are grateful to all the volunteers who worked long, tedious hours in the production of the *répertoire* you are holding. As you can see below, there are several phases of production that go into the making of a *répertoire*.

Photocopying Records: David L. **Bonitatibus**, Sioban Dussault **Bonitatibus**, Gloria Corlew **Cooley**, Gail **LaBarge**, and Kevin **Penrick**.

Data Entry: Marcel P. **Côté**, Constance **Bernier Hebert**, and Paul L. **Lambert**.

Proofreading: Jeanne **Boisvert**, John **Cooke**, Richard **Côté**, and Jean-Guy **Sauve**.

Proof Readers' Printout & Data Corrections: Pauline **Genest Côté**.

Printing Master & Cover: Pauline **Genest Côté** and Gerard **Savard**.

History and Forward: David L. **Bonitatibus** and Julie **Smith**.

THIS BOOK AND ITS CONTENTS

This *répertoire* contains 2314 marriages that took place from November 1869 – September 2005. As is our policy when producing a marriage *répertoire*, we duplicate our database and reverse the order of the data in each record so that the primary person is the bride. These two databases are merged and sorted alphabetically. This, in effect, puts family groupings together and eliminates having to index the brides under their maiden name in the back of the book.

The surname of the father is not repeated when listing parents except in the case where women have been married more than once. If the maiden name is known, an asterisk is placed after the father's given name indicating that more information is noted at the end of the record. If there is doubt as to which name is the maiden name and which name is a surname from a previous marriage, we enter the record in its original form leaving the researcher to determine a person's name at birth.
