## FROM THE PUBLISHER

Permission to copy all of Saint Francis of Assisi, Northville, NY, parish baptism records was granted by Father **Morrette**

Copying the records is the most critical step in the process and requires many hours to complete because some of the early records are fragile making it difficult to handle them. The parish records were copied by and with the helpful cooperation of Mrs. Marion **Walag**, parish secretary.

We are grateful to all the volunteers who worked long, tedious hours to produce the repertoire you are holding. As you can see below, there are several phases of production that go into the making of a repertoire.

**Photocopying Records:** David L. **Bonitatibus** and Joseph David **Schmid**.

**Data Entry:** Lynn Carey **Grice**, and Evelyn E. **Harrington**.

**Proofreading:** John **Cooke**, Richard **Coté** and Jean Guy **Sauve**.

**Proofreaders Printouts & Data Corrections:** Pauline Genest **Coté**.

**Printing Master:** Pauline Genest **Coté**, and Gerard **Savard**.

**Forward:** Julie **Smith**

**History:** David L. **Bonitatibus**, and Julie **Smith**.

## THIS BOOK AND ITS CONTENTS

This *répertoire* contains 701 baptisms that took place from November 1920 to September 2006.

Our policy when producing a baptism *répertoire* is to scrutinize each record during the proofing phase to be sure we have not included any obvious private information such as illegitimacy or adoption. We do include all genealogical information contained in the records, i.e., parents, god parents, birth date if given, and all relevant marginal notes for marriage date, place and spouse.

It is also our practice to enter the data as it appears in the original document, however, if there are discrepancies that cannot be resolved as a transposition or typographical error, the researcher is encouraged to contact the parish priest to ask for permission to see the original documents. If, with all our data entry and proofreading experience, information cannot be deciphered, we leave the final choice to the user of the information.
