FROM THE PUBLISHER

Permission to copy all of St. Luke, Schenectady, NY parish baptism records was granted by Father Dominic P. **Isopo**.

Copying the records is the most critical step in the process and requires many hours to complete because some of the early records are fragile making it difficult to handle them. The parish records were copied with the help of David L.

Bonitatibus.

We are grateful to all the volunteers who worked long, tedious hours to produce the repertoire you are holding. As you can see below, there are several phases of production that go into the making of a repertoire.

Photocopying Records: David L. **Bonitatibus** and Joseph David **Schmid**.

Data Entry: Kathleen Gallagher **Brearton**, Evelyn E. **Harrington**, Margaret (Terri) Gray **Meeks**, Roger R. **Proulx**, and Julie Nystedt **Walder**.

Proofreading: Kathleen Gallagher **Brearton**, David L. **Bonitatibus**, Sioban Dussault **Bonitatibus**, Kathleen Koza **Grabo**, Lynn Carey **Grice**, Margaret Connors **Harrigan**, Carol Rothenheber **Schrom**, Lynne Dignum **Sisk**, and Lois Cruden **Yunker**.

Proofreaders' Printouts & Data Corrections: Pauline Genest **Coté**.

Printing Master: Pauline Genest **Coté**, and Gerard **Savard**.

Foreword: Julie **Smith**

History: David L. **Bonitatibus**

THIS BOOK AND ITS CONTENTS

This *répertoire* contains 8930 baptisms that took place from January, 1916 to September, 2003.

Our policy when producing a baptism *répertoire* is to scrutinize each record during the proofing phase to be sure we have not included any obvious private information such as illegitimacy or adoption. We do include all genealogical information contained in the records, i.e., parents, godparents, birth date if given, and all relevant marginal notes for marriage date, place and spouse.

It is also our practice to enter the data as it appears in the original document, however, if there are discrepancies that cannot be resolved as a transposition or typographical error, the researcher is encouraged to contact the parish priest to ask for permission to see the original documents. If, with all our data entry and proofreading experience, information cannot be deciphered, we leave the final choice to the user of the information.
