REVUE DE LA
SOCIÉTÉ FRANCO-ONTARIENNE
D'HISTOIRE ET DE GÉNÉALOGIE

This repertoire lists all those marriages, that, in the opinion of the compiler, are of some use to the Franco-American genealogist. Every effort has been made to be as complete as possible in listing all the marriages that were found in the Central Falls, Rhode Island City Hall. Most of the marriages found in this repertoire are obviously French-Canadian while others are less obvious-- even to the trained eye. To be sure there are marriages that are not French-Canadian (some Jacques marriages for example) but are included any way so as not to miss any. Swiss, Belgian and Continental French marriages will be found along the way .

The reasons that the Franco-Americans seemed to have been married outside the Catholic Church seem to follow the following patterns:

- (1). they have been divorced which is not recognized by the Catholic Church-- hence marriage before the justice of the peace or a Protestant Minister
- (2). they are marrying a female whose religion is not Catholic
- (3). they are marrying a divorced female partner -- by and large this seems to be the most common reason.

This repertoire contains 1089 such marriages that were found in the City Hall in Central Falls from 1850 to 1950. Mixed in with these marriage records are some of the records of the Town of Cumberland, Rhode Island and Woonsocket, Rhode Island. Also to be found are marriages that took place outside the city itself and in other states. When this has occurred it has been noted. As much information as possible has been included in this repertoire in order to provide genealogical clues to ones ancestors. If any reader finds any errors in this work please notify the publisher so he can make his corrections in the master copy.
