P R É F A C E

La Société de généalogie de l'Outaouais est heureuse de s'associer encore une fois à Guy Désormeaux (561) dans la publication de son dernier travail, un relevé du recensement d'un des cantons du comté de Papineau. L'intérêt de ce travail réside en ce qu'il est plus qu'une transcription littérale de statistiques démographiques. Il s'avérera un important outil de travail généalogique pour cette région, puisque l'auteur, comme il l'explique dans sa présentation, a enrichi ce qui n'était au début qu'une simple énumération de personnes, par l'ajout d'index de noms et de certains liens de parenté. A cette époque, l'épouse n'est inmanquablement représentée dans les recensements que par son prénom. Monsieur Désormeaux nous a fait profiter de ses recherches dans la région du canton de Portland, en insérant, dans la mesure du possible, le nom de fille de la mère. A l'occasion il a aussi francisé l'épellation des patronymes et des prénoms, souvent écrits "à l'anglaise" et de façon méconnaissable, par des énumérateurs qui ne connaissaient pas notre langue.

En somme, voici un travail appelé à rendre d'appréciables services aux chercheurs à l'affût de renseignements dans cet arrière-pays du comté de Papineau.

Le Président

Jean de Chantal

Présentation

C'est avec grand plaisir que je vous présente aujourd'hui le recensement nominal du canton de Portland, situé dans le comté de Papineau, province de Québec. Ce recensement a été effectué sur une période de 40 ans, de 1861 à 1891.

Ces documents ont été transcrits grâce aux recensements conservés aux Archives publiques du Canada, à Ottawa. J'ai réparti ce travail en trois périodes: Portland 1861, Portland-est 1871 à 1891, et finalement Portland-ouest 1871 à 1891. J'ai également mis un index à la fin de chacune d'entre elles, pour faciliter le repérage des familles. Pour mener à bien mon travail, je me suis permis de faire quelques améliorations, telles que de franciser les noms qui semblaient être d'origine française, car j'ai eu quelques difficultés à transcrire certains d'entre eux. Parce que les recenseurs du temps étaient des anglophones, l'orthographe des noms était selon la prononciation anglaise. J'ai également rajouté le nom de fille de l'épouse pour les recensements de 1871 à 1891, car les noms de ces jeunes dames y étaient absents. Je me suis donc guidé d'après les registres des paroisses environnantes. Et enfin, j'ai découvert certains liens de parenté qui n'étaient pas évidents dans les recensements originaux.

Le but de ce travail se veut comme outil de travail, pour faciliter les recherches généalogiques, historiques et démographiques de cette région. Aussi, l'ordre chronologique permet l'étude de l'établissement et de l'évolution de ces familles.

Je tiens à remercier la Société de généalogie de l'Outaouais pour son encouragement, ainsi que mon père, Lucien, et ma mère, Graziella (née Lacombe), qui m'ont donné le goût de retrouver mes racines, mes ancêtres et mon histoire, car connaître ses ancêtres, c'est se connaître soi-même.

Sincèrement vôtre,

Guy Désormeaux

Origine du nom de Portland

L'origine du nom du canton de Portland est tiré d'une municipalité du comté de Dorset, au sud de Dorchester, en Angleterre.

Sa situation géographique

Le canton de Portland est situé dans le comté électoral de Papineau, province de Québec, et il a été défini comme suit:

Borné au nord, par les terres vacantes de la Couronne; au sud, par partie des cantons de Templeton et de Buckingham; à l'est, par le canton de Derry; et à l'ouest, partie par le canton de Wakefield et partie par les terres vacantes de la Couronne. Commencant à un poteau planté dans la ligne de division entre les cantons de Buckingham et Portland définissant l'angle sud-ouest de Derry et l'angle sud-est de Portland; courant de là, magnétiquement nord, 1 degré ouest, le long de la ligne de division entre les cantons Derry et Portland, 803 chaînes, jusqu'à un poteau érigé pour l'angle nord-est du canton de Portland; de là, sud, 89 degrés ouest, le long de la ligne de division entre les terres vacantes de la Couronne et le canton de Portland, 960 chaînes, 50 chaînons, jusqu'à un poteau érigé pour l'angle nord-ouest de Portland; de là, sud, 1 degré est, 803 chaînes, 55 chaînons, le long de la ligne de division entre les terres vacantes de la Couronne et le canton de Wakefield à l'ouest et Portland à l'est, jusqu'à un poteau érigé pour l'angle sud-ouest de Portland; et de là, nord, 89 degrés est, le long de la ligne de division entre les cantons de Templeton, Buckingham et Portland, environ 960 chaînes, 50 chaînons, jusqu'au point de départ; contenant environ 79,971 acres, et la réserve ordinaire pour les grands chemins y comprise, la variation étant de 9 degrés ouest. (1)

Le canton de Portland est transversé par la rivière du Lièvre, qui fut la porte du peuplement de ce canton. Elle sert également de division naturelle pour la partie est et la partie ouest des recensements de 1871 à 1891.

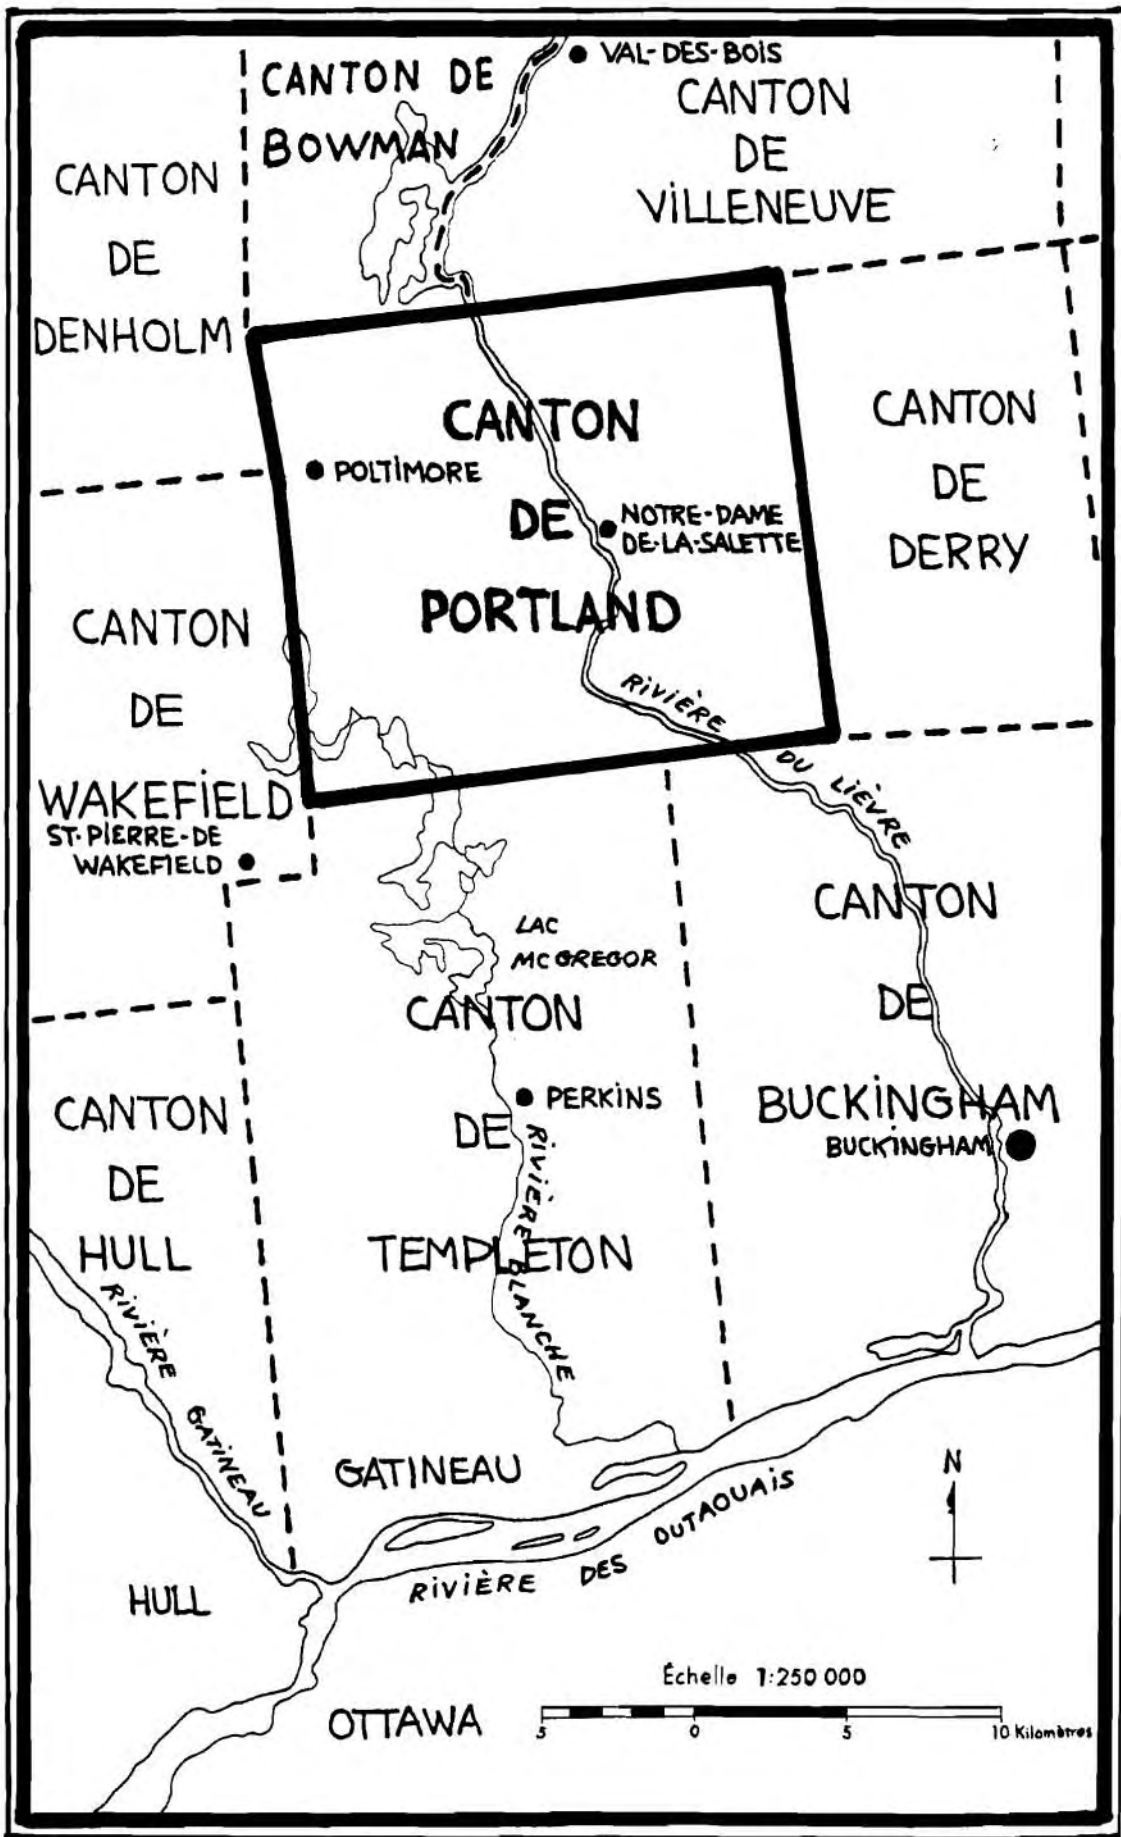

Petit historique

Au temps jadis, le territoire fut le domaine de chasse et de pêche de la nation algonquine. Mais le canton de Portland fut proclamé le 26 février 1841, suite à la concession de terres de la Couronne à John Molson. Les premiers colons à s'y établir étaient des fermiers à la recherche de nouvelles terres. Portland demeura un arrière-pays exploité pour ses ressources, d'abord pour ses fourrures, puis pour ses magnifiques forêts, et par la suite pour ses richesses minières. Mais l'essor de l'industrie forestière entraîna

(1) Clément E. Deschamps, *Municipalités et paroisses dans la province de Québec (Québec)*, Imprimerie Léger Brousseau (1896), pp. 363-364.

la colonisation de la région et le développement de l'agriculture dans la vallée, le long des principaux cours d'eau. Puis par la suite, avec la venue des richesses minières, le canton connaîtra une prospérité florissante.

Les premiers défricheurs à venir s'établir et qui ont laissé une descendance dès les premiers jours, sont les: Brazeau, Carroll, Chalifoux, Chénier, Judge, Lachaine, Legrand, Majeau, Malette, Mc Garry, Mc Mullin, Newton, Paquin, Payette, Riopelle, Sheriden, Thibault, Woods et Wright, quelques-uns parmi tant d'autres. La deuxième vague de familles qui a fournit un apport à la colonisation comprenait les: Baker, Ball, Bisson, Boisvenue, Bonsall, Boucher, Burges, Charron, Colbert, Davidson, Désormeaux, Johnson, Lalonde, Lapointe, Larose, Last, Léveillé, Lauzon, Mason, Mc Goey, O'Brien, Orange, Othmer et Scannell.
