MANITOUWADGE

*Cave of
the Great Spirit*

TOP: Hon. Philip T. Kelly (second from left), Ontario's Minister of Mines, pictured early in 1954 standing with the discoverers of Manitouwadge, Jack Forster, Bill Dawd and Roy Barker. Behind them is the helicopter in which they flew to the remote area.

MIDDLE: In 1962 the Hon. George C. Wardrop, who was then Minister of Mines, used a lumberman's broadaxe to cut the ribbon officially opening the road link from Manitouwadge north to Highway 11.

BOTTOM: Manitouwadge boasts modern and extremely well-equipped schools. Here a group of junior students is waiting for the bell to call them into class.
